CAREER OBJECTIVE

AWS Certified AI Practitioner and aspiring Software Engineer with a strong foundation in programming, software development, and problem-solving. Experienced in building applications using Python with knowledge of AI and machine learning. Passionate about developing reliable, efficient, and user-focused software solutions.

INTERNSHIP EXPERIENCE

SOFTWARE DEVELOPER INTERN | INTERNBOOT 09/2025 – 10/2025
Gained hands-on experience in building applications using Python for machine learning predictions. Worked on data processing and prediction-based applications while learning to develop, test, and improve software solutions.

AI & ML INTERN | INNOVATE INTERN 07/2024 – 08/2024
Worked with Python to process, clean, and analyze data for machine learning projects. Prepared data for model development and assisted in building and evaluating machine learning solutions.

PROJECTS

AI-Powered College Chatbot
Developed an AI-powered college chatbot that provides quick and relevant answers to college-related queries. Built an interactive chat interface that helps students easily access information about academics, facilities, activities, and other college-related topics.

Potato Disease Classification
Developed a deep learning-based plant disease detection system using a Convolutional Neural Network (CNN) to classify potato leaf conditions as Healthy, Early Blight, or Late Blight. Deployed the solution as an interactive Streamlit web application that enables real-time disease detection through image uploads and achieved 96% accuracy.

KEY SKILLS

Programming Languages: Python, Java, SQL

AI/ML: EDA, Supervised and Unsupervised Learning, Deep Learning, Prompt Engineering

Tools/IDE: GitHub, Eclipse IDE, Jupyter Notebook

Soft Skills: Problem Solving, Teamwork, Leadership, Adaptability

EDUCATION

B.E. COMPUTER SCIENCE AND ENGINEERING (AI & ML) 09/2023 – Present
RATHINAM TECHNICAL CAMPUS
CGPA: 9.30

HSC 06/2022 – 04/2023
SWAMY CHIDBHAVANANDA MATRIC HIGHER SECONDARY SCHOOL
Percentage: 89%

CERTIFICATIONS

AWS Certified AI Practioner
Developed foundational knowledge of Artificial Intelligence, Machine Learning, Deep Learning, Natural Language Processing, and Generative AI. Gained hands-on understanding of AWS AI services including Amazon SageMaker AI, Amazon Lex, Amazon Comprehend, and Amazon Textract.

AWS Machine Learning Foundations
Developed a strong foundation in Machine Learning concepts, including the machine learning workflow, data preparation, model training, and evaluation. Studied supervised and unsupervised learning algorithms.
